ABOUT ME

Dipanjan Mondal is a B.Sc Computer Science student interested in Java development, machine learning, and innovative tech solutions. He enjoys building real-world applications, contributing to open-source projects, and learning continuously through hands-on experiences. Known for strong problem-solving abilities, effective collaboration, and clear communication.

EDUCATION

B.Sc in Computer Science
RCCIIT (Under of MAKAUT University)
2023 – 2027 (June)

PROJECTS / EXPERIENCE

Attendance Tracker System (2024 – Present)

- Developed a web + Telegram bot system to display semester-wise attendance using student roll numbers.
- Integrated with college database and implemented backend using Java and MySQL.

SmartCodeMentor (AI-Powered Code Reviewer) (2025 – Ongoing)

- Building a Java + ML-based platform that reviews student code and offers intelligent feedback.
- Aims to help students prepare for internships and technical interviews.

SKILLS

Java   Machine Learning   Web Development   MySQL   Git & GitHub   Data Structures & Algorithms
Problem Solving   Communication   Teamwork   Creativity
